

FRESH! Presents Future Shorts

Club FRESH! at Tampere Film Festival 7.-8.3.2008
- *Short films and club ambience at atmospheric rapid surroundings.*

During this year's Tampere Film Festival, the Media associations Pauhu and Cinematofakers present club FRESH! on the nights of March 7 and 8. The events combine the atmospheric Finlayson factory site with innovative music (DJs), far-reaching visuals (VJs), and the Future Shorts short films and music videos brimming with artistic quality.

The British organisation Future Shorts is one of the major short film distributors worldwide. FRESH! is their first collaboration in Finland to date. The event is expected to bring together cinematic professionals, students and aficionados, along with open-minded club audience in general.

FRESH! kicks off on Friday March 7 at 7pm. Both of the club nights feature two 60 minutes long short film screenings, starting at 9pm and 11pm. The club sound comes courtesy of Tampere's Plauge DJs and the accompanying visuals are provided by National RGB and Vixen VJs.

The venue is located right at the heart of the Film Festival, at Finlaysoninkuja 5. The club venue, built just for this special event, has the capacity to host 200 guests and provides bar services until 2am on both nights.
